View Gift - Landscape

View Gift Details Activity - Landscape (Tablet & Phone)

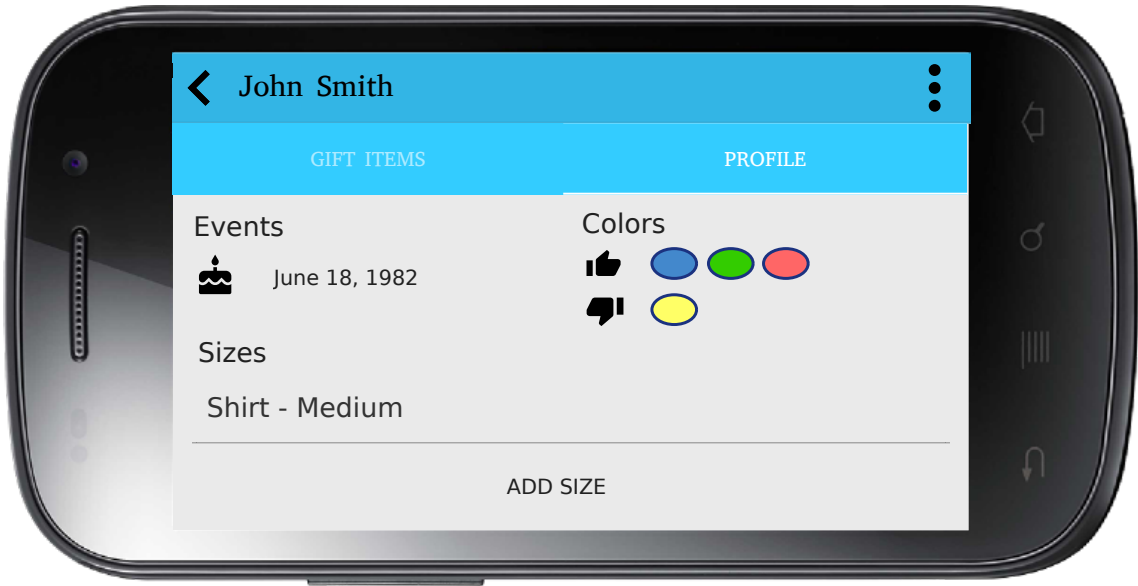

In landscape mode, create a layout that utilizes the additional horizontal space available, especially for tablets. Place the image view on the left and details on the right. In contrast the portrait layout displays the image above the details.

Profile - Landscape

Profile View - Landscape (Tablet & Phone)

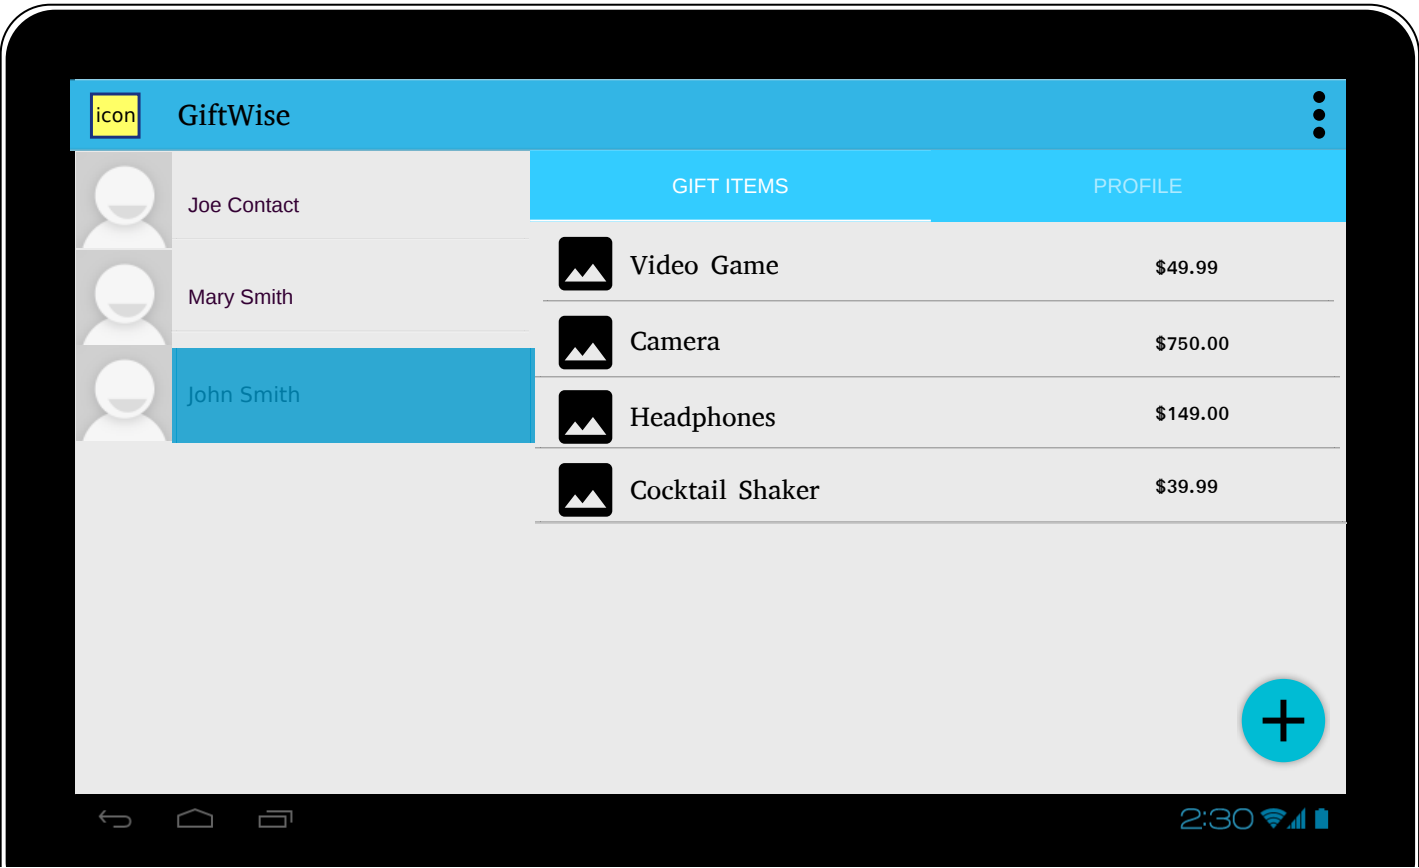

In landscape mode, create a layout that utilizes the additional horizontal space available, especially for tablets. Place the Event on the left and Colors on the right and display the list of Sizes below. In contrast, the portrait layout displays all the elements top to bottom

Main Activity - Landscape (Tablet)

This is an experimental layout for the tablet that was rejected after some implementation
Having a different layout only for landscape on the tablet was ultimately confusing.

DESIGN REJECTED
